

European Ten Sing festival 2011

Become a workshop leader at ETS festival 2011

About the event:

From July 31st until August 6th, 2011, the European Ten Sing festival will take place in Ziegenhain / Germany. For this festival we are searching for workshop leaders.

About you:

You are 18 years or older, having experience with Ten Sing and you lead a Ten Sing workshop at least once before. You speak English. You are creative, open to meet new people and you are totally crazy about leading a workshop for some of the at least 1.500 registered festival participants!

What can you expect:

An international Ten Sing festival in Germany with the festival language to be English. A highly motivated team. New experiences and broadening of your Ten Sing horizon. And of course you'll pay less on your festival fee.

The workshops:

We are searching for workshops and leaders for one of the following categories:

- Culture: small language courses, Henna painting, regionally typical food, ...
- Creativity: handicrafts, theater, media (photo, video), festival newspaper, ...
- Praise & Worship: pray station, gospel choirs, ...
- Music and Singing: percussion, guitar, mini choirs, bottle whistling, ...
- Sports & Games: dancing, juggling, easy-to-learn games, ...

Besides the workshops, the talkshows and talkshops and drop in activities will take place.

Drop in activities, talkshows, talkshops, workshops:

During the festival, there will be time for workshops at four different days, each of them having four units of 1½ hours of workshop time. The workshops will take place in this time pattern. A workshop can last for different time: only one time unit or more. Furthermore, the workshop may be held more than once a day, or even containing one or two units each day and being split over the festival.

Each festival participant will chose some workshops for each day at the beginning of the festival. The drop in activities, talkshows and talkshops will be offered in parallel to the workshops, but can be attended at any time by all participants.

The conditions:

It would not be Ten Sing if we had lots of money to spend for the workshops. So, the less material you need for your workshop, the better. Please also keep in mind that your workshop's participants cannot bring anything for the workshop with them, as they will decide which workshops to attend at the beginning of the festival. Although the space is somehow limited, we will have enough indoor and outdoor capacities for the workshops. You'll be contacted in advance for all the details. It will be your decision how much attendees you allow for your workshop.

And now? Are you crazy for leading a workshop at the ETS festival?

→ Please fill in your details on the following page and send us your message soon!
